General Comments

Tai-Lin Liu; Diary on 04/11/2011, Monday – Sunny, 60/43 °F

- Checked Lotus Notes (e-mails) & PMIV to print Submittal / RFI log. There were still two Submittals on the list - #2222 (OBG overall erection sequence for lift 12-14) & #2265 (Sea Transportation Plan for Voyage 11 – OBG 12 Crossbeam, Bike Paths and Barriers).

- Called John Denis (TYL) to discuss ABF's comments for Submittal # 2222 and Sub #2265's comment as well.

- Started preparing the response for Sub #2222 by going through the package again and discuss with Gary. Completed response letter and send to Gary & Karen for review and comment.

- Started looking into Submittal #2265 & TYL's comments. Karen called to find out the status of this submittal.

- Joe came to my office to find out CCO189 status, I told him that the revised drawings were ok to write ATP. New ATP draft has been written and to be checked tomorrow.
